

Basic Growth

Ensures healthy growth and optimal digestion and is ideal for horses with a higher protein and energy requirement. For example, horses that need to build more muscle (like young horses) or pregnant mares. Rich in structure due to a variety of fibers and raw fiber sources.

USP's

- No added sugars and low in starch
- Rich in protein and with essential amino acids
- Supports extra muscle building

Daily feeding advice

- ca. 250 grams per feeding benefits the positively active ingredients, saliva production and better utilization of the power feed.
- From approximately 1 kilo per feeding, the protein-rich mix benefits mass and muscle building.
- ca. 50-600 grams per 100 kilos of bodyweight. 1 kg of Basic Growth replaces approximately 1.25 kg of hay.

Ingrediënts

Various hay	Soybean meal	Natural protein powder
Sun-dried alfalfa	Poppy straw	Linseed oil
Alfalfa pellets	Barley straw	GoTox*
Spelt shells	Soybean oil
